**Extended Care:**

***“Unless you notify the Extended Care Director in writing about a change in service before the change is to take place, you will be billed for the original service for which you signed up.”***  
***(p. 29 Parent-Student Handbook)***

The number of students registered for a specific service affects the Extended Care budget. However, we realize that changes do occur. We ask you to please

make only one change per year in your Extended Care service and to please make sure the change is done in writing before it actually occurs. Thank you for your understanding in this matter.
