

ST. PAUL'S SCHOOL
San Francisco, California

PHILOSOPHY

St. Paul's School is a Catholic school dedicated to the education of its students and their development as active, faith-filled Catholic Christians.

It is the goal of St. Paul's School to provide for the development of each child to his or her fullest potential as a balanced individual: spiritually, intellectually, socially, emotionally, and physically. We offer a solid curriculum in religion, reading/literature, English, mathematics, science and social studies. We supplement that core curriculum with art, computer, music, physical education, and Spanish classes. It is through this learning environment that Christian values and morals are taught.

St. Paul's school maintains an environment where all students are taught to appreciate and respect cultural differences.

St. Paul's school recognizes that parents are the primary educators of their children. Our teachers, as facilitators in the learning process, value working in partnership with parents to ensure each child has the opportunity to maximize his or her own learning potential.

St. Paul's school believes that the purpose of Catholic education is to assist each student in becoming a well-educated, balanced, faith-filled individual who has developed a sense of respect and responsibility toward himself or herself, others and the environment.
